

Cyren Announces Record Second Quarter 2018 Financial Results

August 8, 2018

Achieves 20% sequential revenue growth; highest quarterly revenue in company history

MCLEAN, Va., Aug. 8, 2018 /PRNewswire/ -- [Cyren](#) (NASDAQ: CYRN) today announced its second quarter 2018 financial results for the period ending June 30, 2018.

During the second quarter, Cyren reported its highest ever quarterly revenues of \$9.2 million – an increase of 20% over the first quarter 2018, and 18% over the second quarter 2017.

The growth was driven primarily by a large contract expansion with Microsoft, and double digit growth in the enterprise business. As previously announced, Microsoft has partnered with Cyren to integrate its anti-phishing technology into Office 365 in order to protect millions of enterprise users in real-time from the latest phishing attacks. Bookings from enterprise accounts, excluding Microsoft, were up 277% over the second quarter of 2017, while enterprise revenue recognition during the second quarter grew by 43% year-over-year.

"We are extremely pleased with our financial results during the second quarter," said Lior Samuelson, CEO and Chairman of the Board at Cyren. "It's rewarding to see that our hard work and product innovation translated to record revenue growth during the quarter. We look forward to a strong second half of 2018."

Use of Non-GAAP Financial Measures:

Non-GAAP financial measures consist of GAAP financial measures adjusted to exclude: stock-based compensation expenses, amortization of acquired intangible assets, and deferred taxes related to acquisitions, one-time gain from sale of investment in affiliate, adjustments to earn-out obligations, capitalization of technology, accretion of discount on convertible note and change in fair value of the embedded conversion feature. The purpose of such adjustments is to give an indication of the company's performance exclusive of non-cash charges and other items that are considered by management to be outside of the company's core operating results. The company's non-GAAP financial measures are not meant to be considered in isolation or as a substitute for comparable GAAP measures, and should be read only in conjunction with the company's consolidated financial statements prepared in accordance with GAAP.

Company management regularly uses supplemental non-GAAP financial measures internally to understand, manage and evaluate the business and make operating decisions.

These non-GAAP measures are among the primary factors management uses in planning for and forecasting future periods. The company believes this adjustment is useful to investors as a measure of the ongoing performance of the business. The company believes these non-GAAP financial measures provide consistent and comparable measures to help investors understand the company's current and future operating cash flow performance. These non-GAAP financial measures may differ materially from the non-GAAP financial measures used by other companies. Reconciliation between results on a GAAP and non-GAAP basis is provided in a table immediately following the Consolidated Statements of Income. The presentation of this non-GAAP financial information is not intended to be considered in isolation or as a substitute for the financial information prepared and presented in accordance with GAAP. Management uses both GAAP and non-GAAP measures when evaluating the business internally and therefore felt it important to make these non-GAAP adjustments available to investors.
