PROSPECTUS SUMMARY

Purpose built for the cloud, we are an early pioneer and leading innovator of Software-as-a-Service, or SaaS, security solutions that protect businesses, their employees and customers against threats from email and the web.

We believe our cloud-based approach to cybersecurity sets us apart from other vendors in the market. Our security solutions are architected around the fundamental belief that cybersecurity is a race against time – and the cloud best enables the speed, sophistication and advanced automation needed to detect and block threats as they emerge on the internet around the globe. As more and more businesses move their data and applications to the cloud, they need a security provider that is able to keep pace.

Our cloud security products and services fall into three categories:

- **Cyren Threat Detection Services** – these services detect a variety of threats in email, files and from the web, and are embedded into products from the world’s leading email and cybersecurity vendors. Cyren Threat Detection Services include our Email Security Detection Engine, Malware Detection Engine, Web Security Engine, and Threat Analysis Service.
- **Cyren Threat Intelligence Feeds** – Cyren’s Threat Intelligence Data products provide valuable threat intelligence that can be used by enterprise or OEM customers to support threat detection, threat hunting and incident response. Cyren’s Threat Intelligence Data offerings include IP Reputation Intelligence, Phishing Intelligence, Malware Intelligence and Zombie Intelligence.
- **Cyren Enterprise Email Security Products** – these include cloud-based solutions designed for enterprise customers and are sold either directly or through channel partners. Cyren Enterprise Email Security products include Cyren Email Security, a cloud-based secure email gateway and Cyren Inbox Security, an anti-phishing and remediation product for Microsoft 365.

All of Cyren’s cybersecurity products are powered by Cyren GlobalView, Cyren’s global security cloud that identifies emerging threats on a global basis, in real-time. GlobalView analyzes billions of security transactions each day and rapidly detects a variety of threats in email, files and from the web. By inspecting internet traffic in the cloud, Cyren identifies threats as they emerge, stopping them before they reach users.

RISK FACTORS

Investing in our securities involves a high degree of risk. Please carefully consider the following factors as well as the other information contained and incorporated by reference in this prospectus, including the risk factors set forth under the caption “Item 1A. Risk Factors” in our most recent Annual Report on Form 10-K, as well as any amendments thereto reflected in subsequent filings with the SEC. Before making an investment decision, you should carefully consider these risks as well as other information we include or incorporate by reference in this prospectus.

We are currently not in compliance with the Nasdaq Capital Market listing standards. If our ordinary shares are delisted, the market price and liquidity of our ordinary shares and our ability to raise additional capital would be adversely impacted.

Our ordinary shares are currently listed on the Nasdaq Capital Market. Continued listing of a security on the Nasdaq Capital Market is conditioned upon compliance with various continued listing standards. On April 8, 2021, we received written notice from the Listing Qualifications Department of the Nasdaq Stock Market (“Nasdaq”) informing us that the closing bid price for our ordinary shares listed on the Nasdaq Capital Market was below \$1.00 per share for 30 consecutive business days prior to receiving the notice. We do not currently meet the minimum closing bid requirement for continued listing on the Nasdaq Capital Market set forth in Rule 5550(a)(2) of the Nasdaq Listing Rules. On October 6, 2021, the closing price for our ordinary shares was \$0.49 per share.

Under Nasdaq Listing Rules, we have 180 calendar days from the date of the notification to regain compliance with Nasdaq Listing Rules, or until October 5, 2021. On October 6, 2021, we received written notice from Nasdaq granting the Company a second compliance period of 180 calendar days, or until April 4, 2022, to regain compliance with the requirement for our ordinary shares to maintain a minimum bid price of \$1 per share for continued listing on the Nasdaq Capital Market. If we do not regain compliance by April 4, 2022, Nasdaq will provide written notification that our ordinary shares will be delisted. At that time, we may appeal Nasdaq’s determination to a Hearings Panel. We will consider various options if our ordinary shares do not trade at a level that is likely to regain compliance, including, effecting a reverse stock split, if necessary. There can be no assurance that we will regain compliance with the \$1.00 minimum bid price requirement or comply with Nasdaq’s other continued listing standards in the future.

In the event that our ordinary shares are not eligible for continued listing on the Nasdaq Capital Market or another national securities exchange, trading of our ordinary shares could be conducted in the over-the-counter market or on an electronic bulletin board established for unlisted securities such as the Pink Sheets or the OTC Bulletin Board. In such event, it could become more difficult to dispose of, or obtain accurate price quotations for, our ordinary shares, and there would likely also be a reduction in our coverage by security analysts and the news media, which could cause the price of our ordinary shares to decline further. Also, it may be difficult for us to raise additional capital if we are not listed on a major exchange.

The issuance of additional shares in connection with financings, acquisitions, investments, our equity incentive plans, conversion of our convertible notes and debentures or otherwise will dilute other shareholders. In addition, our failure in the future to raise additional capital or generate the significant capital necessary to expand our operations and invest in new services and products could reduce our ability to compete and could harm our business. The ability to increase the authorized share count could limit our options for continuing to support the business.

In addition to the Private Placement, we have made, and intend to continue to make, investments to support our business growth and may require additional funds to respond to business challenges, including the need to develop new features to enhance our services and products, improve our operating infrastructure or acquire complementary businesses and technologies. Accordingly, we may need to engage in equity or debt financings to secure additional funds. For example, in December 2018, we issued \$10 million aggregate principal amount of convertible notes to an existing minority investor in a private placement which have a maturity of December 2021. In November 2019, we closed our rights offering, pursuant to which we issued 4,635,584 ordinary shares at \$1.73 per share, including 4,624,277 shares issued to Warburg Pincus. In addition, in March 2020, we issued \$10.25 million aggregate principal amount of our convertible debentures to accredited investors in a private placement and in February 2021 (the “Debentures”), we issued 12 million shares at a price of \$1.15 per share in a registered direct offering and warrants to purchase 720,000 shares.

Our shareholders have experienced dilution of their equity interests as a result of these issuances and prior issuances. Furthermore, we may seek to restructure the convertible notes when they mature in December 2021, including by issuing additional shares. We may also elect to satisfy interest payments on the convertible notes and convertible debentures by the issuance of ordinary shares based on the market price at the time of the interest payment.

Your investment may be significantly diluted by the conversion of our Debentures, the payment of interest in ordinary shares on the Debentures, and the exercise of warrants.

A substantial number of ordinary shares could be issued upon conversion of our Debentures and issued as interest on the Debentures and issued upon exercise of our outstanding warrants. Sales of substantial amounts of our ordinary shares in the public market, or the possibility of these sales, may adversely affect our stock price. As of September 30, 2021, 14,375,072 ordinary shares were reserved for issuance upon conversion of the \$10,250,000 principal amount of outstanding Debentures (including shares issuable in respect of 5.75% interest payable if the Debentures are held until maturity). In addition, as of September 30, 2021, 17,392,074 ordinary shares were reserved for issuance upon exercise of outstanding warrants, including the 15,001,946 ordinary shares issuable upon exercise of warrants issued in connection with the Private Placement. If issued, the shares underlying our Debentures and warrants would increase the number of ordinary shares currently outstanding and will dilute the holdings and voting rights of our then-existing shareholders. Further, if we elect to issue ordinary shares as payment of interest under the Debentures, the actual number of ordinary shares issued will be based on fluctuating trading prices of our ordinary shares prior to the interest payment date. To the extent that the price of our ordinary shares declines, and we elect to issue ordinary shares as payment of interest under the Debentures, we will need to issue more ordinary shares to satisfy the interest payment, which will result in further dilution.

A sale of a substantial number of ordinary shares by our shareholders may cause the price of our ordinary shares to decline.

If our shareholders sell, or the market perceives that our shareholders intend to sell for various reasons, substantial amounts of our ordinary shares in the public market, the price of our ordinary shares may decline. Additionally, such conditions may make it more difficult for us to sell equity or equity-related securities in the future at a time and price that we deem reasonable or appropriate.

We will not receive any proceeds from the sale of our ordinary shares by the selling shareholders covered by this prospectus.

We are registering our ordinary shares that were, or may be, issued by us to the selling shareholders to permit the resale of our ordinary shares from time to time after the date of this prospectus. We will not receive any of the proceeds from the sale by the selling shareholders of our ordinary shares.

We do not intend to pay dividends for the foreseeable future.

We have never declared or paid any dividends on our ordinary shares. We intend to retain any earnings to finance the operation and expansion of our business, and we do not anticipate paying any cash dividends in the future. As a result, you may only receive a return on your investment in our ordinary shares if the market price of our ordinary shares increases.

Service of process upon our non-U.S. resident directors and executive officers or the Israeli experts named herein and enforcement of judgments obtained in the United States against us, our directors and executive officers, or the Israeli experts named herein, may be difficult to obtain within the United States. For further information regarding enforceability of civil liabilities against us and certain other persons, see the risk factor “You may have difficulties enforcing a U.S. judgment against us and our executive officers and directors or asserting U.S. securities laws claims in Israel” under the heading “Risk Factors” in our most recent Annual Report on Form 10-K, which is incorporated by reference herein.

USE OF PROCEEDS

We will not receive any proceeds from the sale of any or all of the ordinary shares being offered by the selling shareholders under this prospectus.

PRIVATE PLACEMENT OF ORDINARY SHARES AND WARRANTS

On September 15, 2021, we entered into securities purchase agreements with the selling shareholders pursuant to which we issued and sold, in the Private Placement, an aggregate of 14,152,779 ordinary shares and warrants to purchase up to 14,152,779 ordinary shares for aggregate gross proceeds of approximately \$10.2 million, before deducting fees to the placement agent and other offering expenses payable by us. The warrants have an exercise price of \$0.60, are exercisable immediately and expire on March 17, 2025. The closing of the Private Placement occurred on September 17, 2021.

We engaged H.C. Wainwright & Co., LLC, or Wainwright, to act as the exclusive placement agent in connection with the Private Placement. As consideration for the services provided to us by Wainwright as placement agent, in addition to placement agent fees and reimbursement of reasonable and documented expenses, we issued to designees of Wainwright placement agent warrants to purchase an aggregate of 849,167 ordinary shares. Such placement agent warrants have an exercise price of \$0.90 per share, are immediately exercisable and expire on March 17, 2025.

SELLING SHAREHOLDERS

The ordinary shares being offered by the selling shareholders are those previously issued to the selling shareholders, and those issuable to the selling shareholders, upon exercise of the warrants. For additional information regarding the issuances of those shares of ordinary shares and warrants, see “Private Placement of Ordinary Shares and Warrants” above. We are registering the ordinary shares in order to permit the selling shareholders to offer the shares for resale from time to time. Except for the ownership of the ordinary shares and the warrants, the selling shareholders have not had any material relationship with us within the past three years.

The table below lists the selling shareholders and other information regarding the beneficial ownership of the ordinary shares by each of the selling shareholders. The second column lists the number of ordinary shares beneficially owned by each selling shareholder, based on its ownership of the ordinary shares and warrants, as of October 1, 2021, assuming exercise of the warrants held by the selling shareholders on that date, without regard to any limitations on exercises.

The third column lists the ordinary shares being offered by this prospectus by the selling shareholders.

In accordance with the terms of a registration rights agreement with the selling shareholders, this prospectus generally covers the resale of the sum of (i) the number of ordinary shares issued to the selling shareholders in the Private Placement and (ii) the maximum number of ordinary shares issuable upon exercise of the related warrants, determined as if the outstanding warrants were exercised in full as of the trading day immediately preceding the date this registration statement was initially filed with the SEC, each as of the trading day immediately preceding the applicable date of determination and all subject to adjustment as provided in the registration right agreement, without regard to any limitations on the exercise of the warrants. The fourth column assumes the sale of all of the shares offered by the selling shareholders pursuant to this prospectus.

Under the terms of the warrants, a selling shareholder may not exercise the warrants to the extent such exercise would cause such selling shareholder, together with its affiliates and attribution parties, to beneficially own a number of ordinary shares which would exceed 4.99% or 9.99%, as applicable, of our then outstanding ordinary shares following such exercise, excluding for purposes of such determination ordinary shares issuable upon exercise of the warrants which have not been exercised. The number of shares in the second column does not reflect this limitation. The selling shareholders may sell all, some or none of their shares in this offering. See "Plan of Distribution."

PLAN OF DISTRIBUTION

Each selling shareholder of the securities and any of their pledgees, assignees and successors-in-interest may, from time to time, sell any or all of their securities covered hereby on the principal trading market or any other stock exchange, market or trading facility on which the securities are traded or in private transactions. These sales may be at fixed or negotiated prices. A selling shareholder may use any one or more of the following methods when selling securities:

- ordinary brokerage transactions and transactions in which the broker-dealer solicits purchasers;
- block trades in which the broker-dealer will attempt to sell the securities as agent but may position and resell a portion of the block as principal to facilitate the transaction;
- purchases by a broker-dealer as principal and resale by the broker-dealer for its account;
- an exchange distribution in accordance with the rules of the applicable exchange;
- privately negotiated transactions;
- settlement of short sales;
- in transactions through broker-dealers that agree with the selling shareholders to sell a specified number of such securities at a stipulated price per security;
- through the writing or settlement of options or other hedging transactions, whether through an options exchange or otherwise;
- a combination of any such methods of sale; or
- any other method permitted pursuant to applicable law.

The selling shareholders may also sell securities under Rule 144 or any other exemption from registration under the Securities Act of 1933, as amended (the "Securities Act"), if available, rather than under this prospectus.

Broker-dealers engaged by the selling shareholders may arrange for other brokers-dealers to participate in sales. Broker-dealers may receive commissions or discounts from the selling shareholders (or, if any broker-dealer acts as agent for the purchaser of securities, from the purchaser) in amounts to be negotiated, but, except as set forth in a supplement to this Prospectus, in the case of an agency transaction not in excess of a customary brokerage commission in compliance with FINRA Rule 2440; and in the case of a principal transaction a markup or markdown in compliance with FINRA IM-2440.

In connection with the sale of the securities or interests therein, the selling shareholders may enter into hedging transactions with broker-dealers or other financial institutions, which may in turn engage in short sales of the securities in the course of hedging the positions they assume. The selling shareholders may also sell securities short and deliver these securities to close out their short positions, or loan or pledge the securities to broker-dealers that in turn may sell these securities. The selling shareholders may also enter into option or other transactions with broker-dealers or other financial institutions or create one or more derivative securities which require the delivery to such broker-dealer or other financial institution of securities offered by this prospectus, which securities such broker-dealer or other financial institution may resell pursuant to this prospectus (as supplemented or amended to reflect such transaction).

The selling shareholders and any broker-dealers or agents that are involved in selling the securities may be deemed to be “underwriters” within the meaning of the Securities Act in connection with such sales. In such event, any commissions received by such broker-dealers or agents and any profit on the resale of the securities purchased by them may be deemed to be underwriting commissions or discounts under the Securities Act. Each selling shareholder has informed us that it does not have any written or oral agreement or understanding, directly or indirectly, with any person to distribute the securities.

We are required to pay certain fees and expenses that we incur incident to the registration of the securities. We have agreed to indemnify the selling shareholders against certain losses, claims, damages and liabilities, including liabilities under the Securities Act.

We agreed to keep this prospectus effective until the earlier of (i) the date on which the securities may be resold by the selling shareholders without registration and without regard to any volume or manner-of-sale limitations by reason of Rule 144, without the requirement for us to be in compliance with the current public information under Rule 144 under the Securities Act or any other rule of similar effect or (ii) all of the securities have been sold pursuant to this prospectus or Rule 144 under the Securities Act or any other rule of similar effect. The resale securities will be sold only through registered or licensed brokers or dealers if required under applicable state securities laws. In addition, in certain states, the resale securities covered hereby may not be sold unless they have been registered or qualified for sale in the applicable state or an exemption from the registration or qualification requirement is available and is complied with.

Under applicable rules and regulations under the Exchange Act, any person engaged in the distribution of the resale securities may not simultaneously engage in market making activities with respect to the ordinary shares for the applicable restricted period, as defined in Regulation M, prior to the commencement of the distribution. In addition, the selling shareholders will be subject to applicable provisions of the Exchange Act and the rules and regulations thereunder, including Regulation M, which may limit the timing of purchases and sales of the ordinary shares by the selling shareholders or any other person. We will make copies of this prospectus available to the selling shareholders and have informed them of the need to deliver a copy of this prospectus to each purchaser at or prior to the time of the sale (including by compliance with Rule 172 under the Securities Act).
